## **7. FUNDRAISING**

All parents must participate and support all fundraising efforts done by the crèche. All the children benefit from the fundraising initiatives and campaigns and therefore all parents should be obligated to participate. Please note this is a condition a parent must agree to in order to have their child considered for enrolment.

These fundraising initiatives help the crèche implement invaluable educational and developmental programs for the children. It also assists with minimizing added costs to the parent. So the more supportive the parents are the more benefits can be enjoyed by the children.

## **8. HEALTH & MEDICATION:**

Parents are also requested to disclose all allergies, medical conditions, medical treatments and medication the child is receiving for record purposes. The Crèche reserves the right to decline an application if we're unable to accommodate a child with a specific allergy. Such decision is not made lightly but ultimately, we have to act in the child's best interest and safety.

Under **NO** circumstances will any staff member of the Crèche administer any medication to students. This policy is non-negotiable. It is the parent's responsibility to manage medical treatments / course with their doctors.

Parents please note that we are responsible for the well-being of not only your child/ren but the remainder of our student body as well as such must stop any possible spread of infection. Any child who is sick will not be allowed at the Crèche until they have fully recovered from the illness. **A child will not be accepted back into the Crèche without an official doctor's clearance certificate or letter.**

If any child shows symptoms of illness while in our care, the Crèche staff will contact the person responsible for the child immediately to collect the child. The responsible person is obligated to collect the child immediately in order to seek medical attention.

Parents must ensure the clinic cards are kept up to date by each child's doctor or medical facility. Please ensure that the Crèche is regularly furnished with updated copies thereof.

The Crèche does not discriminate against any child diagnosed with any medical condition, which includes but is not limited to HIV/Aids or with a disability. Although we don't discriminate against the parties, regretfully applicants are advised that our facility may not be equipped to cater to the needs of such a child.

## 9. SAFETY POLICY

Only designated persons will be allowed to collect children from our premises. These persons **MUST** be introduced to the Crèche staff in advance.

Please note that the child/ren will not be released into the care of anyone other than a designated party. Should you require any person other than that stipulated to collect your child/ren, please contact the Crèche to arrange same. We will require the name and identity/passport number of designated party, who must present the his/her identity document/passport in order for us to verify his/her identity before we will release your child/ren into his/her care. With the number of child abductions increasing annually we have to be extra careful. We require the full co-operation of all our parents/ guardians in this regard. The Crèche responsibility passes upon collection of the child by the person designated by the parent/guardian. We therefore request parents to carefully consider when making this decision.

Please ensure that your child/ren are dropped off and collected from the Crèche by an adult. **Should you authorize a minor, that is anyone under the age of 18 years old, to collect your child/ren you do so at your own risk and the Crèche shall not be responsible for any loss, damage, injury or death resulting from your failure to adhere hereto.**

Please request any person dropping off your child/ren to ensure that the child is personally handed over to a staff member and not merely dropped outside the facility and left unattended. It is the parent's responsibility of the parent/guardian to instruct and ensure that the designated transport driver personally drops off and collects the child in person and does not request a third party to do so. As part of the application supporting documentation, a certified copy of the driver's ID must be submitted.
